INDEX TO SIGNAL

Volume 53 September 1998 Through August 1999

TITLE

Sorted by topic, each listing below includes index number, title, month of publication and page number.

Aeronautical Engineering

1. Rivals Stretch Thinking to Tackle Next-Century Battlefield Demands . . . . . Nov. p. 38
2. Joint Strike Fighter Program Chases Cost-Effective Avionics Development . . . Dec. p. 65

Analysis

3. Trading Partners Clash On Data Privacy Policy . . . . . Aug. p. 37

Asia-Pacific Rim

4. Asia-Pacific Rim Economic Climate Overshadows Business Opportunities . . . . Oct. p. 36
5. Pacific Communications Span Broad Gulf of Hemisphere . . . . . Oct. p. 40

Association Feature

6. TechNet Europe '98 Examines New Tasks for Technology . . . . . Jan. p. 324
7. Robust Information Technologies Vital to Maintaining Pacific Theater Effectiveness . . . Apr. p. 91
8. Diverse Customers Find Common Ground In Adopting Advanced Technology Solutions . . . . . Aug. p. 78

Business

9. Competition Stimulus Activates French Industry's Restructuring . . . . . Sept. p. 45
10. Developers Shift Course of Guided Munitions Production . . . . . Dec. p. 74
11. Pentagon Comparative Testing Program Pursues Overseas Technical Advantages . . . Dec. p. 77
12. Diversity and Information Technology Provide Stability, Promote Success . . . . . Feb. p. 43

Business Profile

13. Commercial Practices Illuminate Path to Government Activities . . . . . Aug. p. 65

Business Trends

14. Weather Information Takes World Wide Web By Storm . . . . . June p. 17
15. Resource Rich, Cooperative Centers Cultivate Technologies' Newcomers . . . . . June p. 21
16. Enterprise Maneuvers Deter Software Soldiers of Fortune . . . . . June p. 27
17. Telecommunications Industry Awaits Internet Protocol Telephony Evolution . . . June p. 33

Command and Control

18. Artillery Command Systems Convey Split-Second Orders . . . . . Nov. p. 58
19. Information Technologies No Longer Limit Command Center Development . . . Nov. p. 63

Commentary

20. Europe's Growth Increases AFCEA's Impact . . . . . Sept. p. 14
21. Intelligence Increasingly Relies on Symbiotic Relationship . . . . . Oct. p. 14
22. High Technology Is Essential to Reviving Our Defense Force . . . . . Nov. p. 14
23. Commercial Technology Companies Find New Defense Opportunities . . . . . Dec. p. 14
24. The New Year Heralds a New Era for AFCEA . . . . . Jan. p. 14
25. Securing Information Is the Ultimate Element of Data Management . . . . . Feb. p. 15
26. Defense Reform a Timely Teammate With Commercial Technologies . . . . . Mar. p. 14
27. A Half Century Leads to a New Era . . . . . Apr. p. 14
28. Providing Imagery Is Only Part of the Picture . . . . . May p. 14
29. A Message to Our Members: Seize the Opportunity . . . . . June p. 14
30. Now Is the Time to Prime the Research Pipeline . . . . . July p. 14
31. The World Needs an International Approach to Information Security . . . . . Aug. p. 14

Communications

32. Israeli Battlefield Radio Advances Induce International Military Sales . . . . . Sept. p. 83
33. Secure Satellite Links Induce Potent Allied Crisis Response . . . . . Oct. p. 31
34. Commercial Satellite Constellation Offers Potential Military Benefits . . . . . Nov. p. 43
35. Redesigned Communication Equipment Strengthens First-to-Fight Operations . . . . . Mar. p. 33
36. Tactical Communication System Tuned for Export Market . . . . . Apr. p. 69
37. Technology Renovation Program Transforms Military Headquarters . . . . . May p. 57
38. Combat Surveillance Method Rolls Out Onto City Streets . . . . . June p. 93

Computing

39. High-Level Graphics Computing Migrates to Desktop Machines . . . . . Feb. p. 46
40. Remote Computing Utility Eases Interface Problems . . . . . July p. 65
41. Software Algorithms Add Fuel to Processor Speed . . . . . Aug. p. 73

Conference Report

42. Experts Focus on Reining in Information Technologies . . . . . July p. 68

Communications

32. Israeli Battlefield Radio Advances Induce International Military Sales . . . . . Sept. p. 83
33. Secure Satellite Links Induce Potent Allied Crisis Response . . . . . Oct. p. 31
34. Commercial Satellite Constellation Offers Potential Military Benefits . . . . . Nov. p. 43
35. Redesigned Communication Equipment Strengthens First-to-Fight Operations . . . . . Mar. p. 33
36. Tactical Communication System Tuned for Export Market . . . . . Apr. p. 69
37. Technology Renovation Program Transforms Military Headquarters . . . . . May p. 57
38. Combat Surveillance Method Rolls Out Onto City Streets . . . . . June p. 93

Computing

39. High-Level Graphics Computing Migrates to Desktop Machines . . . . . Feb. p. 46
40. Remote Computing Utility Eases Interface Problems . . . . . July p. 65
41. Software Algorithms Add Fuel to Processor Speed . . . . . Aug. p. 73

Conference Report

42. Experts Focus on Reining in Information Technologies . . . . . July p. 68

Data Management

43. Visualizing Information Emerges As Major Element of Operations . . . . . Feb. p. 17
44. Cleansing Looms Important In Data Warehouse Efforts . . . . . Feb. p. 21
45. Commercial Software Offers Storage, Retrieval Solutions to Federal Agencies . . Feb. p. 25
46. Industry, Government Team To Move Masses of Tax Data . . . . . Feb. p. 31

Display Technologies

47. Unconventional Screen Components Ride the Wave to Future Convenience . . . . . Mar. p. 40
48. Tactical Airborne Displays Advance to High-Performance Commercial Technology . . . . . Mar. p. 43
49. Innovative Screens Make Life Easier for Military Users . . . . . Mar. p. 47

Electronic Commerce

50. Digital Handshake Characterizes Defense Electronic Commerce . . . . . Mar. p. 17
51. Electronic Service Offers Small Companies Access to World of Big Business . . . . . Mar. p. 21
52. Research Offers Insight Into On-Line Business Practices . . . . . Mar. p. 25
53. Common Currency Influences Virtual Marketplace Growth . . . . . Mar. p. 29

Electronic Warfare

54. Position-Fixing Methods Use Broadband Direction Finders . . . . . Oct. p. 71

Electronics

55. Optical Correlator Invigorates Real-Time Pattern Recognition . . . . . Dec. p. 44

Europe

56. Allied Command Europe Harnesses Digital Communications Advances . . . . . Sept. p. 17
57. French Army Gains Tactical Radio Switching Advantage . . . . . Sept. p. 52
58. Passive Detection Sensors Track Aircraft's Onboard Transmitters . . . . . Sept. p. 56
59. Extended European Air Defense Moves to Contractor Selection . . . . . Sept. p. 59
60. German Radar Sensor Progress Cues Missile Defense Weapons . . . . . Sept. p. 61

Fleet Operations

61. Comprehensive Standards Set Course For Naval Communications Evolution . . . Dec. p. 37
62. Navy's Digital Modular Radio Drives Software Programming . . . . . Dec. p. 39
63. Future Towed-Array Sonar Designs Linked to Specialized Processing . . . . . Dec. p. 41

Geospatial Information Systems

64. Industry Team Proposes Alternative Situational Awareness Technology . . . . . May p. 37
65. Imagery Agency Passes the Torch To Commercial Service Providers . . . . . May p. 42
66. Smart System Classifies Data, Offers Options to Commanders . . . . . May p. 47

Government

67. Standards Institute Studies Encoding Formula Options . . . . . Aug. p. 69

GovTechNet '99

68. High-Speed Network Backbone Combines Fiber, Wireless Links . . . . . May p. 69
69. Command, Control and Communications Funding Rises for Coming Fiscal Year . . . . . May p. 71
70. Advanced Technology Demonstration Illustrates Efficient Service Solutions . . . June p. 108

High-Technology Careers

71. Industry Confronts Personnel Dilemma Using Unconventional Methods, Perks . . . Jan. p. 37
72. Competition Drives Government To Match Private Sector Incentives . . . . . Jan. p. 45
73. Universities Respond to Growing Demand With Custom-Designed Technology Programs . . . . . Feb. p. 69

Information Operations

74. Information Age Warfare Must Enlist Civilian Partnerships . . . . . June p. 65
75. Commercial Components Feed Electronic Warfare Systems . . . . . June p. 73
76. Electronic Threats Fall Prey to Fast Moving Simulation Laboratory . . . . . June p. 79
77. Fourth Wave Advanced Technologies Affect Electronic Intelligence, Warfare . . . June p. 87
78. Social, Criminal Protagonists Engage in New Information Age Battle Techniques . . . . . July p. 53
79. Defense Department's Achilles' Heel Targeted for Heightened Protection . . . . . July p. 57
80. Self-Inflicted System Malfunctions Threaten Information Assurance . . . . . July p. 61

Infrastructure Protection

81. Electronic Commerce Stimulates Total Network Security Approach . . . . . Feb. p. 33
82. Security Professionals Chase Network Penetration Modes . . . . . Feb. p. 36
83. Multilevel Security Solutions Advance for Operating Systems . . . . . Feb. p. 38

Intelligence

84. Intelligence Agency Adjusts As Mission Possible Unfolds . . . . . Oct. p. 17
85. Information Age Poses New Challenges to Intelligence . . . . . Oct. p. 23
86. Air Intelligence Confronts New Geopolitical Realities . . . . . Oct. p. 27
87. Superconductor Advances Expand Signal Reconnaissance Capabilities . . . . . Feb. p. 65
88. Missile Technology Access Emboldens Rogue Nations . . . . . Apr. p. 17
89. Psst! Want to Buy a Missile? . . . . . Apr. p. 21
90. Unmanned Aerial Vehicle Relays Pictures to Airborne Radar System . . . . . May p. 61
91. Radio Frequency Countermeasures Suite Protects Aircraft, Maps Battlefield Threats . . . . . June p. 44

International

92. Turkey's Technology Investments Drive Export Market Competition . . . . . Oct. p. 43
93. Middle-of-the-High-Road Orbiters Aim for Mobile Telecommunications . . . . Oct. p. 46
94. Electronic Warfare Sensors Play Key German, Allied Forces Role . . . . . Nov. p. 53
95. Electronics and Sensors Steer Precision Target Engagement . . . . . Dec. p. 69
96. Dynamic Privatization Ignites Czech Communications Growth . . . . . Jan. p. 51
97. Israel Designs Antiarmor Missile To Fire Out of Tank Guns . . . . . Feb. p. 73
98. China Forges Ahead With Indigenous Avionics Base . . . . . Feb. p. 77
99. German Battlefield Electronics Link Communications, Sensors . . . . . Mar. p. 51
100. Polish Military Benefits From Telecommunications Research . . . . . Apr. p. 53
101. European Group Develops, Tests Standards for Worldwide Use of Voice Over Internet Protocol . . . . . June p. 37
102. Simulated Training Efforts Foster Interoperability, Develop Common Procedures . . . . . June p. 40
103. German Firm Aims Antennas At Security Communications . . . . . Aug. p. 75

Law Enforcement Technologies

104. Data Technology Changes the Face of On-Site Criminal Investigations . . Apr. p. 57
105. Software Supports the Case for Computerizing Law Enforcement . . . . . Apr. p. 61

Military

106. Britain's Rapid Military Action Rides Information Technology . . . . . Sept. p. 22
107. Multimedia Communications Spur Tactical Information Dominance . . . . . Sept. p. 27
108. Fully Automatic and Adaptive High Frequency Radios Emerge . . . . . Sept. p. 33
109. Commercial Processors Catapult Ruggedized U.K. Military Options . . . . . Sept. p. 39
110. Mobile Russian Surveillance, Air Defense Advances Flow . . . . . Oct. p. 65
111. Defense Information Technology Spending to Remain Constant . . . . . Jan. p. 31
112. Defense Department Researchers Aim for Sky-Based Switchboard . . . . . Apr. p. 65
113. Tactical Radios Become Smaller, Lighter and Wetter . . . . . May p. 65
114. Marines Seek New Solutions to Secure the Urban Area . . . . . June p. 99
115. Navy Seeks Future Missions for Microwave, Vacuum Electronics . . . . . July p. 49
116. British Command and Control Moves Into the Fast Lane . . . . . Aug. p. 41
117. Advanced Radio Integrates Multiple Features in One Unit . . . . . Aug. p. 45

NATO at 50

118. Atlantic Alliance Begins Era of New Missions, Shared Responsibilities . . . . . Apr. p. 41
119. Digitization Defines Future of North Atlantic Treaty Organization . . . . . Apr. p. 43
120. Communications, Information Systems Drive Bulgaria's Military Reform . . . . . Apr. p. 49

Networks

121. Internet Drives On-line Commerce, But Commute Causes Traffic Jams . . . . . May p. 17
122. Collaborative Tool Builds Virtual Gathering Places . . . . . May p. 21
123. Protocol Spawns Debate Over Future of Voice, Data, Video Communications . . . . May p. 25
124. Data Visualization Software Maps Networks, Business Processes and Transportation Routes . . . . . May. p. 29

Research & Development

125. Military, Academia Join Forces To Advance Polish Technologies . . . . . Sept. p. 75
126. Smaller, Faster Circuit Elements Bypass Previous Expectations . . . . . Sept. p. 79
127. British Researchers Plan Future Electronic Society . . . . . July p. 17
128. Sociological Change Threatens Top-Down Companies, Economies, Governments . . . . . July p. 19
129. Military Research Reorganization Consolidates Technologies, Goals . . . . . July p. 23
130. Electronic Devices Poised to Enter Self-Communication Age . . . . . July p. 27

Science & Technology

131. Computer-Aided Design Assumes Greater Burden in Chip Maturation . . . . . Mar. p. 58
132. Microprocessor Research Aims At Shattering Speed Records . . . . . Jan. p. 56
133. Active-Pixel Approach Brings Chip Minicams Into Focus . . . . . May p. 35
134. Scientists Search for Deep Ultraviolet Light Successor . . . . . June p. 105

Security

135. Pyrotechnics Provide Emergency Critical Information Destruction . . . . . Sept. p. 71
136. Hidden Hazards Menace U.S. Information Infrastructure . . . . . Aug. p. 17
137. Minuscule Combination Lock Safeguards Silicon Capital . . . . . Aug. p. 23
138. Digital Credentials Kick Off New Commerce Procedures . . . . . Aug. p. 27
139. Adaptive Response Tool Foils Hacker Intrusion . . . . . Aug. p. 33

Simulation

140. Multiple Threat Virtual Environment Analyzes Pilot, Aircraft Capabilities . . . . Sept. p. 63
141. Joint Training Center Serves As Simulation Trial Customer . . . . . Sept. p. 66
142. Uncertainty Factor Drives New Approach to Building Simulations . . . . . Oct. p. 75

Software Engineering

143. Complementary Partnerships Extend Corporate Reach, Benefit Customers . . . . Nov. p. 46

144. Collaborative Laboratory Scrutinizes Science Behind Software Engineering ... Nov. p. 50

Space

145. Satellite Simulation Equipment Enables Training, Certification ..... Mar. p. 55

Tactical Operations

146. Britain Shapes Military Forces For Maritime Power Projection ..... Nov. p. 17
147. Air Force Communications Experts Practice Expeditionary Operations ..... Nov. p. 21
148. Tests of Year 2000 Problem Validate Solutions, But Reveal Some Surprises ..... Nov. p. 22
149. Marines' Precise Dragon Fire Rains Deadly Steel Against Distant Targets .... Nov. p. 27
150. Germany Opts for Triad Approach In New Tactical Radio System ..... Nov. p. 31
151. Laboratory Scientists Close In on Laser Missile Mauler ..... Nov. p. 35

Telecommunications

152. Utility Approach Emerges From Communications Access Strategy ..... Apr. p. 29
153. Regional Telephone Company Expands Reach, Broadens Services ..... Apr. p. 33
154. Satellite Communications Provider Downlinks One-Stop Shopping ..... Apr. p. 37
155. Exploiting Dormant Bandwidth Enables Expanded Video Usage ..... July p. 31

Telemedicine

156. Emergent Telemedicine Components Deliver Expertise to Front-Line Forces ... July p. 35
157. Holistic Approach Encourages Medical Technology Deployment ..... July p. 39
158. Injury Evaluation Deepens With Echo Arcing Technique ..... July p. 45

Viewpoint

159. Agile Intelligence Enterprise Offers Requisite Flexibility ..... Oct. p. 79
160. Imagery's National Status Faces Questionable Future ..... May p. 53

Wireless Technologies

161. University Establishes Research Hub To Delve Into Wireless Opportunities .... Dec. p. 17
162. Global Satellite Datalinks Connect Fixed, Mobile Users ..... Dec. p. 21
163. Commanders Gain Global Access Through Commercial Equipment ..... Dec. p. 25
164. Amphibious Warfare Changes Prompt Entrepreneurial Ways ..... Dec. p. 31

Year 2000

165. Military Planners Charge Into Year 2000 Theater of Battle ..... Jan. p. 17
166. Success Varies for Agencies Confronting Year 2000 Problem ..... Jan. p. 22
167. Playing Truth or Consequences With the Year 2000 Problem ..... Jan. p. 26

AUTHOR

The numbers in the listing below refer to the index numbers from the title listing starting on page 108.

Ackerman, Robert K. ..... 5, 7, 11, 19, 39, 43, 46, 50, 65, 68, 69, 75, 85, 86, 87, 93, 99, 100, 103, 112, 116, 119, 120, 125, 127, 128, 129, 130, 136, 141, 145, 147, 148, 151, 161, 165.

Barrett, Lt. Danelle, USN ..... 10, 34.

Biggs, Bruce B. ..... 77.

Brown, David A. ..... 1, 2, 76.

Bussert, James C. ..... 98.

Campen, Col. Alan D., USAF (Ret.) ..... 74, 167.

Colucci, Frank ..... 91.

Elliott, Ronald D. ..... 159.

Firlie, Maj. Michael E., USA ..... 150.

Franklin, Dr. Jude E. ..... 77.

Hankins, Michelle L. ..... 3, 7, 17, 40, 44, 45, 51, 52, 67, 72, 73, 78, 79, 101, 102, 104, 123, 124, 152, 153, 154.

Hess, Rear Adm. Dr. Sigurd, GE N (Ret.) ..... 6.

Hunt, Lt. Col. Carl W., USA ..... 142.

Kagan, Mark H. ..... 35, 36, 37, 49, 53, 83, 90, 97, 105, 111, 113, 162, 166.

Kenyon, Henry S. ..... 117, 139.

Lawlor, Maryann ..... 1, 4, 8, 15, 16, 37, 38, 64, 66, 70, 71, 122, 137, 138, 140, 143, 144, 155, 156, 157, 158.

Lowenthal, Dr. Mark M. ..... 160.

Ramey, Darrell L. ..... 77.

Reed, Fred V. ..... 41, 47, 114, 126, 131, 132, 133, 134.

Robinson, Clarence A., Jr. ..... 9, 18, 32, 33, 54, 55, 56, 57, 58, 59, 60, 62, 81, 82, 84, 88, 89, 92, 94, 95, 96, 106, 107, 108, 109, 110, 135, 146, 149, 163, 164.

Robinson, Michael A. ..... 12, 13, 14, 121.

Solana, Dr. Javier ..... 118.

Walsh, Edward J. ..... 48, 61, 63, 115.

Watt, Lt. Col. Glenn D., USAF ..... 80.

Wood, Lt. Gen. C. Norman, USAF (Ret.) ..... 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31.
